

## 2009-2010 School Year

Asbestos containing building materials (ACBM) are present at Community Consolidated School District #204.

In accordance with the Federal Asbestos Hazard Emergency Response Act (ADHERA), an accredited inspector and management planner has completed a review of the locations, quantities and friability of the asbestos containing materials and have prepared an assessment and response action plan to reduce exposure to asbestos fibers.

Copies of the asbestos management plan for Community Consolidated School District #204, which includes the inspection report, is located in the main office of the school.

The plan is available to the public for inspection without cost or restriction within five working days after receiving a written request for inspection. Hours of availability and a copy of the form, "Request for Inspection of Management Plan," will be provided upon request.

Should a request be made for a copy of the report or parts of the report, Community Consolidated School District #204 will charge \$0.25 per page to make copies of the plan.

If you have further questions please contact the Community Consolidated School District #204 Administration office at (618) 357-2419.
